

# Professional Statement

I am a developing professional in the field of **cybersecurity**, with a solid foundation in **computer networks** and **information security fundamentals**. My strengths include **analytical thinking**, **attention to detail**, and **the ability to quickly learn and apply new knowledge**.

I value **ethics**, **integrity**, and **responsibility** — principles I consider essential for protecting data, systems, and people.

I chose to pursue a career in cybersecurity because I believe that **protecting information and strengthening digital infrastructures** is a meaningful way to make a positive impact and foster trust in the technological environment.

My goal is to contribute to strengthening organizations' security posture, with a particular focus on **vulnerability analysis** and **penetration testing (Red Team)**, helping identify risks and implement preventive solutions that ensure the **confidentiality**, **integrity**, and **availability of information**.
